Title

- Stuff
- More stuff

Code

```
public void barcodeActionPerformed(BarcodeScanner scanner) {  
    String productID = scanner.readLastScan();  
    InventoryManager mgr = new InventoryManager();  
    Double price = mgr.getPrice(productID);  
    // add the details to the sale data structure  
    addToSale(id, price);  
}
```

Code with Highlight

```
public void barcodeActionPerformed(BarcodeScanner scanner) {  
    String productID = scanner.readLastScan();  
    InventoryManager mgr = new InventoryManager();  
    Double price = mgr.getPrice(productID);  
  
    // add the details to the sale data structure  
    addToSale(id, price);  
}
```
